

ELURA JEWELS

Client User Manual

Website Admin, CMS, Digital Twin Content, Marketing, and Shopify Operations

Purpose

This manual explains how a non-technical ELURA admin can update website content, manage homepage media, control Digital Twin CMS fields, review marketing data, and know when to use Shopify instead of the website admin.

Prepared for	ELURA Jewels client/admin team
Admin login	/admin-login
Main admin area	/admin
Manual version	1.0

Manual version 1.0

Prepared 8 June 2026

Contents

- 1 Quick start for daily admin work
- 1 Admin access and navigation
- 1 Homepage CMS settings
- 1 Digital Twin CMS user guide
- 1 Hero banners, CTA banners, about media, and collections
- 1 Marketing, customers, subscribers, coupons, and social media
- 1 Image and link rules
- 1 Pre-publish checklist and troubleshooting
- 1 Appendix: Digital Twin field glossary

Client-facing note
This manual describes what the current admin screens allow. Where a feature requires a developer connection, the manual says so clearly.

1. Quick Start

Daily Editing Workflow

- 1 Go to /admin-login and sign in with the approved admin account.
- 2 Open the relevant admin section from the left sidebar.
- 3 Make one focused edit at a time.
- 4 Use Save on that screen before leaving the page.
- 5 Open the public page in a separate browser tab and refresh it.
- 6 Check desktop and mobile views before announcing the change.

Best practice
Keep a copy of important wording before replacing it. The current admin screens do not provide a visible draft or revision-history workflow.

What The Client Can Safely Edit

Area	Admin screen	What can be changed
Homepage announcement	/admin/settings	Enable/disable, message, link, colors
Cart drawer messages	/admin/settings	Free delivery, secure checkout, returns messages
Conversion settings	/admin/settings	Gift wrap, delivery labels, stock threshold
Care guide	/admin/settings	Title, summary, step list
Location Digital Twin CMS	/admin/settings	Sections, images, cards, FAQs, testimonials, amenities, CTA fields

Area	Admin screen	What can be changed
Homepage hero	/admin/banners	Slides, media, overlay strength, headings, buttons
Homepage collections	/admin/collections	Section title, subtitle, display style, item limit
About media	/admin/about	About section image or video
CTA banners	/admin/cta	CTA media, heading, label, text, button
Social media links	/admin/social-media	Platform, URL, enabled state, order
Newsletter popup	/admin/marketing/newsletter	Heading, description, offer, delay, enabled state

2. Admin Access And Navigation

Logging In

- 1 Open /admin-login.
- 2 Enter the approved admin email and password.
- 3 After login, the system opens the protected admin area.
- 4 Use Logout in the sidebar when finished, especially on shared devices.

Admin Sidebar

Menu item	Use it for
Dashboard	Overview and quick access
Homepage CMS	Announcement, cart messages, conversion settings, care guide, Digital Twin CMS
Hero Banners	Homepage hero slide media and text
Collections CMS	Homepage collection section presentation
Coupons	View Shopify discount codes and open Shopify Discounts
Marketing	Marketing overview and Shopify links
Customers	Search, filter, sort, and inspect Shopify customer data
Subscribers	Search subscribed customers
Social Media	Footer social links and order

3. Homepage CMS Settings

Announcement Bar

- 1 Enable announcement bar: turns the bar on or off.
- 1 Message: the text visitors see.
- 1 Link URL: optional destination when visitors click the announcement.
- 1 Background color and text color: use brand-friendly contrast.

Cart Drawer Messages

- 1 Free delivery message: shipping reassurance in the cart.
- 1 Secure checkout message: payment/security reassurance.
- 1 Easy returns message: returns reassurance.

Conversion Settings

- 1 Enable gift wrapping: turns gift wrap option on or off.
- 1 Free shipping threshold: amount that qualifies for free shipping.
- 1 Gift wrap price: price shown to customers.
- 1 Shopify gift wrap variant ID: only change this if Shopify product setup changes.
- 1 Low stock threshold: when low-stock messaging should appear.
- 1 UK and international delivery labels: text shown to shoppers.

Caution

Do not change Shopify variant IDs unless Shopify has been updated. Incorrect IDs can break gift wrap checkout behavior.

Jewellery Care Guide

- 1 Title: care guide heading.
- 1 Summary: short introduction.
- 1 Steps: enter one care step per line.

4. Digital Twin CMS User Guide

Current implementation note

The Digital Twin editor exists inside /admin/settings. The visitor page component exists, but the site team must mount it into the active Location Engine route before client edits appear on public location pages.

What The Digital Twin CMS Controls

Content type	Editable fields
Every section	Heading, subheading, description, background, visibility, order
Every image	Image URL, alt text, caption, overlay text, badge, sort order, visibility
Every card	Title, description, icon, image URL, link, sort order, visibility
Header and footer	Same section/card controls as body sections
FAQs	Question in Title, answer in Description
Testimonials/reviews	Review title in Title, quote in Description
Amenities	Amenity name in Title, detail in Description, icon in Icon
CTA buttons	Button text in Title, destination in Link, support copy in Description

Digital Twin Sections

Section	Client use
Header	Location page navigation and intro details
Hero	Main first impression, hero text, hero image, primary CTAs
Hero Gallery	Above-the-fold visual story images
Counters	Quick confidence numbers or short proof points
Trust Strip	Short reassurance cards
Property Cards	Primary location shopping paths or featured cards
Sub Area Chips	Nearby area or micro-location chips
Amenities	Shopping amenities and service benefits
Benefits	Why customers should buy or enquire
Landmarks	Local landmarks, occasions, or nearby references
Gallery	Main image gallery
Testimonials	Approved customer notes or reviews
FAQs	Questions and answers
Map	Location/map card and map link
CTA	Final conversion section
Footer	Location footer contact and links

Editing A Digital Twin Section

- 1 Open /admin/settings.
- 2 Scroll to Location Page Digital Twin.
- 3 Find the section to edit, such as Hero, Amenities, FAQs, or CTA.
- 4 Use Visible/Hidden to show or hide the whole section.
- 5 Edit Heading, Subheading, Description, Background, and Order.
- 6 Update Images and Cards inside that section.
- 7 Press Save Settings at the bottom of the page.
- 8 Open the public location page after it is connected and refresh to confirm.

Editing Digital Twin Images

- 1 Image URL: direct image path or hosted URL. The current Digital Twin editor uses URL entry, not file upload.
- 1 Alt text: describe the image for accessibility and search clarity.
- 1 Caption: small supporting text shown with the image where the renderer displays captions.
- 1 Overlay text: text displayed over the image.
- 1 Badge: small label such as Featured, Gallery, Rings, or New.

- 1 Sort order: lower numbers appear earlier.
- 1 Visibility: hide an image without deleting it.

Editing Digital Twin Cards

- 1 Title: card heading, FAQ question, review title, chip label, or CTA button text.
- 1 Description: card body text, FAQ answer, review quote, or CTA support copy.
- 1 Icon: icon name such as Gem, MapPin, ShieldCheck, Gift, Calendar, Mail, ShoppingBag.
- 1 Image URL: optional card image.
- 1 Link: optional destination, such as /shop, /contact, mailto:hello@example.com, or https://...
- 1 Sort order: lower numbers appear earlier.
- 1 Visibility: hide the card without deleting it.

Background Values

- 1 ivory: soft ELURA off-white background.
- 1 white: clean white section.
- 1 linen: warmer neutral background.
- 1 mist: light muted background.
- 1 ink: dark premium section, best for hero or CTA.

5. Hero Banner Management

- 1 Open /admin/banners.
- 1 Enable rotational hero banner if more than one slide should rotate.
- 1 Each slide can be image or video.
- 1 Upload PNG, JPG, JPEG, WEBP, or MP4 depending on media type.
- 1 Edit slide label, headline, description, button text, button link, overlay strength, and text alignment.
- 1 Maximum slides: 5.
- 1 Press Save Hero Banners.

Hero image tip

Use wide, high-quality images with the key jewellery or model subject away from the button/text area. Check mobile after every hero change.

6. About, Collections, And CTA

About Media

- 1 Open /admin/about.
- 1 Choose Image or Video.
- 1 Upload the file.
- 1 Check the preview.

- 1 Press Save About Section.
- 1 Recommended section size shown in admin: 1100 x 700.

Collections CMS

- 1 Open /admin/collections.
- 1 Enable or disable the homepage collections section.
- 1 Edit section title and subtitle.
- 1 Set maximum collections from 1 to 20.
- 1 Choose Editorial or Grid display style.
- 1 Shopify collections are synced automatically; manage actual products and collection membership in Shopify.

CTA Banner Management

- 1 Open /admin/cta.
- 1 Enable rotational CTA banner if multiple CTA banners should rotate.
- 1 Edit small label, main heading, small paragraph, button text, and button link.
- 1 Choose Image or Video and upload the media.
- 1 Maximum CTA banners: 4.
- 1 Recommended real section size shown in admin: 1400 x 520.
- 1 Press Save CTA Banners.

7. Marketing, Customers, Subscribers, Coupons

Marketing Dashboard

- 1 Open /admin/marketing.
- 1 Review total customers, subscribers, and marketing consent counts.
- 1 Use buttons to open Shopify Customers, Shopify Email, or Shopify Discounts.
- 1 Use Newsletter Popup to edit the popup content.

Newsletter Popup

- 1 Open /admin/marketing/newsletter.
- 1 Enable or disable the popup.
- 1 Edit heading, description, offer text, and delay time in seconds.
- 1 Press Save Newsletter Popup.

Customers And Subscribers

- 1 Customers page lets you search customers, filter consent status, sort by newest/orders/spend, and open customer details.
- 1 Subscribers page lets you search subscribed customers.
- 1 Customer and subscriber data comes from Shopify. Use Shopify for deeper customer management.

Coupons

- 1 Open /admin/coupons to view active Shopify discounts mirrored into the admin.
- 1 Click Open Shopify Discounts to create or edit discount codes.
- 1 Discount setup is handled in Shopify, not directly in the website CMS.

8. Social Media Links

- 1 Open /admin/social-media.
- 2 Choose a platform from the dropdown.
- 3 Enter the full URL beginning with https://.
- 4 Keep Enabled checked if it should appear on the site.
- 5 Click Add Platform.
- 6 Use arrow buttons to change order.
- 7 Use Disable to hide without deleting.
- 8 Click Save.

9. Image And Link Rules

Image Rules

- [] Use clear, premium-quality jewellery images.
- [] Avoid blurry, dark, or heavily cropped images.
- [] Keep important subjects away from text overlay areas.
- [] Always write meaningful alt text.
- [] Use short captions and badges.
- [] Check mobile after changing wide hero or CTA images.

Link Rules

Link type	Example	When to use
Internal page	/shop	Links inside the same website
Product/category query	/shop?category=Rings	Filtered shop links
Email	mailto:info@example.com	Email buttons
WhatsApp	https://wa.me/447...	WhatsApp contact
External	https://maps.google.com/...	Google Maps or outside websites

10. Pre-Publish Checklist

- [] Saved the correct admin screen.
- [] Checked the public page after refresh.

- []** Checked desktop and mobile.
- []** Confirmed links open the correct destination.
- []** Confirmed images load and are not cropped awkwardly.
- []** Confirmed spelling, prices, delivery wording, and phone/email details.
- []** Confirmed hidden items are not visible.
- []** Confirmed Shopify-only changes were made in Shopify, not only in the website admin.

11. Troubleshooting

Problem	Likely reason	What to do
Change does not appear	Page cache or unsaved form	Press Save, refresh public page, try hard refresh
Image does not show	Invalid URL or upload failed	Re-upload or paste a valid hosted image URL
Button goes nowhere	Missing or incorrect link	Use /shop, /contact, mailto:, or full https:// URL
Digital Twin change not public	Location page not mounted yet	Ask site team to connect PgLocationPage to the active route
Shopify data looks old	Shopify sync/API delay	Refresh admin page, then check Shopify directly
Admin says failed to save	Network/Firebase/API issue	Try again; if repeated, send screenshot to developer

12. What Requires Developer Or Shopify Support

- 1** Creating new website routes or changing routing behavior.
- 1** Mounting the Digital Twin page into the active Location Engine route.
- 1** Adding true apply-to-all controls, inheritance controls, or impact analysis screens.
- 1** Adding admin preview inside the Digital Twin editor.
- 1** Changing Shopify product data, inventory, prices, variants, collections, or discount rules.
- 1** Changing Firebase, Cloudinary, Shopify, or environment configuration.

Appendix A: Digital Twin Field Glossary

Field	Meaning	Client guidance
Heading	Main title of a section	Keep short and specific
Subheading	Small eyebrow label	Use labels like Hero, Amenities, FAQs
Description	Supporting copy	One or two concise sentences
Background	Visual section style	Use ivory, white, linen, mist, or ink
Visibility	Show/hide control	Hide instead of deleting when unsure
Order	Section position	Lower numbers appear first

Field	Meaning	Client guidance
Image URL	Image source	Paste a hosted image URL or imported asset path
Alt text	Accessibility image description	Describe the image naturally
Caption	Small image label	Short descriptive text
Overlay text	Text displayed over image	Keep very short
Badge	Small image/card label	Use one or two words
Title	Card heading/button/FAQ question	Use action-oriented wording for CTAs
Icon	Lucide icon name	Examples: Gem, MapPin, Gift, Mail
Link	Destination URL	Leave blank if card should not click
Sort order	Item position	Use 1, 2, 3 for easy ordering

Appendix B: Admin Change Request Template

Send this to the site team when support is needed

Page or admin screen: _____

What I changed: _____

What I expected: _____

What happened instead: _____

Screenshot attached: Yes / No

Urgency: Low / Medium / High
